Re: Notice of Aerial Larval Control Application

In accordance with 333 CMR 13.04(7) (a & b), please consider this as notification of the potential spring (and summer if conditions warrant) aerial applications targeting mosquito larvae in the larger wetlands of the District.

The Norfolk County Mosquito Control District will potentially be conducting helicopter applications of the bio rational larvicide Bti (*Bacillus thuringiensis israelensis*) to control mosquito larvae, should conditions warrant. Go to the Districts website for targeted spring wetland locations. The summer wetland locations will be posted before any application should it be warranted. These potential applications will be conducted over specific large wetlands in the Towns of:

**Avon/Bellingham/Braintree/Canton/Dedham/Dover/Foxboro/Franklin
Holbrook/Medfield/Medway/Millis/Milton/Needham/Norfolk/Norwood
Plainville/Quincy/Randolph/Sharon/Stoughton/Walpole/Westwood
Weymouth/Wrentham.**

Any potential applications will be conducted **between April 9, and September 9, 2017.**

The trade name of the granular formulation of Bti utilized will be any of the following: VectoBac GR (EPA Reg. #73049-486). For further information contact David A. Lawson, Director at (781) 762-3681 or the Boards of Health in the towns listed above. Information is also available on line at:

Respectfully submitted,

David A. Lawson

Aerial Application to Control Mosquito Larvae

The Norfolk County Mosquito Control District will be conducting helicopter applications of the biological larvicide Bti to control mosquito larvae. The application will be conducted over specific large wetlands in the Towns of: Avon, Bellingham, Braintree, Canton, Dedham, Dover, Foxboro, Franklin, Holbrook, Medfield, Medway, Millis, Milton, Needham, Norfolk, Norwood, Plainville, Quincy, Randolph, Sharon, Stoughton, Walpole, Westwood, Weymouth, and Wrentham. The application could be conducted at any time between April 9 and September 9, 2017, as conditions warrant. The trade name of the granular formulation of Bti utilized will be any of the following: VectoBac GR (EPA Reg. #73049-486). For further information contact David A. Lawson, Director at (781) 762-3681 or the Boards of Health in the towns listed above. Information is also available on line at www.norfolkcountymosquito.org
