

CANTON CONSERVATION COMMISSION
REQUEST FOR A DETERMINATION OF APPLICABILITY INSTRUCTIONS
WETLAND PROTECTION ACT MGL Ch. 131 § 40 AND
TOWN OF CANTON WETLANDS PROTECTION BY-LAW
ARTICLE XV

Requests for Determination of Applicability (RDA) are primarily used for activities occurring only in the Buffer Zone to a Wetland Resource Area that do not require significant conditions. The construction of a shed within 40 feet of the edge of a wetland is an example of work that would require the filing of an RDA application. *Work proposed within a Wetland Resource Area or new construction/site disturbance within a previously undisturbed area of the Buffer Zone will require the filing of a Notice of Intent (see Notice of Intent Application Instructions).*

The following activities within the Buffer Zone **do not** require filing with the Conservation Commission:

- Unpaved pedestrian walkways for private use, provided there is not tree or shrub clearing;
- Fencing, provided it will not constitute a barrier to wildlife movement and is not located within the 30' No Build Zone;
- Stone walls;
- Stacks of cordwood;
- Plantings of native species of trees, shrubs, or groundcover, but excluding turf lawns;
- The conversion of impervious to vegetated surfaces, provided erosion and sedimentation controls are implemented during construction; and
- Maintaining, repairing, or replacing, but not substantially changing or enlarging an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, drainage, sanitary sewer, telephone, telegraph or other telecommunication services provided that written notice has been given to the Commission 14 days prior to the commencement of work.
- Emergency projects necessary for the protection of the health or safety of the public, provided that an Emergency Certification is issued by the Commission or its Agent for the proposed work.

All other work proposed within 100 feet of a Wetland Resource Area requires filing an RDA or NOI application.
