

Gibson Field Restoration

Applicant: Playground & Recreation Commission

Project Cost: \$34,000

CPA Funding Requested: \$34,000

- ❖ Gibson Field is located at Canton High School and gets extensive use by the High School Baseball teams and other organizations. Heavy use has led drainage problems and lips around the infield grass, which creates safety issues during play.
- ❖ The project will allow for capital improvements that exceed the capacity of the Town's maintenance program, including laser grading of the infield, rebuilding the pitcher's mound and home plate area, and re-centering base paths.

CCPC Vote: Recommend Funding Full CPA Request of \$34,000
